

Inclement Weather Policy For BASC Tournaments

The safety of our players, parents, volunteers and fans is of the highest importance to the Broken Arrow Soccer Club. Therefore in the event of thunder or lightning, play will be suspended and all should seek shelter immediately. Play will resume 20 minutes AFTER the threat has passed.

Play will be suspended and re-started using the following procedure:

SUSPEND PLAY – 1 long blast of the air horn

RESUME PLAY – 3 short blasts of the air horn

Field Marshals will also be notified by radio of the suspension and resumption of play.

Upon the suspension of play, teams must go to their vehicles, or a place of safety...**do not leave the site and do not go to the headquarters tent for shelter.**

In the event of rain, play will continue unless the fields become so wet as to present a serious potential of injury to players or of lasting damage to the fields.

In the event that a match(s) is/are cancelled due to inclement weather, the score at the time of the cancellation will be declared final and will be recorded as such if one half has been completed. Matches not yet started or in progress, but with less than one half completed, will be recorded as a 0-0 tie. The Tournament Director reserves the right to make whatever adjustments may be necessary in game length to proceed with the schedule following a delay due to inclement weather.

In the event of rain during the finals, we will follow the above procedure. If at all possible, final contests will be decided on the field by completion of the game or by penalty kicks if time or conditions do not permit game completion. If the awards presentation is suspended, the head coach of each of the final teams should present themselves immediately following the end of their contest to the headquarters tent to receive their team's trophies and individual awards.

Please also note the BASC weather hotline number – 258 - 5770
